Young J. Juhn, MD, Professor of Pediatrics
Department of Pediatric and Adolescent Medicine
The Mayo Clinic, Rochester, Minnesota

Tuesday, May 7, 2019, 12:00pm—1:00pm
47 College Street, Seminar Room 106B; Lunch at 11.30am

Dr. Juhn is a Professor of Pediatrics in the Department of Pediatrics at the Mayo Clinic. He is a general academic pediatrician, and clinical epidemiologist by training. Also, he is a board certified clinical informatician. After he completed the Clinical Epidemiology Fellowship and Masters in Health Policy and Administration at Yale in 1999, he joined the Mayo Clinic. He is currently the director of Precision Population Science Lab and director of the Integrating Special Population Work Group for the CTSA program of the Mayo Clinic. He has a joint appointment in the Division of Allergy and Immunology of the Department of Internal Medicine and the Division of Health Care Policy and Research at the Mayo Clinic. He is an NIH R01 and R21-funded physician scientist and has served on NIH study sections for many years. His long-term research interest is asthma epidemiology and health disparities and his research work has been funded by multiple NIH, foundation, and industry grants. He will present his research work on health disparities today.
