Does your child have asthma?

Millions of children suffer with asthma. Please join us in studying how cleaner indoor air can help.

To learn more or to see if you are eligible, contact (203) 737-6469 or email CAPS@yale.edu. Visit our website for more information: http://medicine.yale.edu/ysph/cppee/projects/projects/caps.aspx

Children’s Air Pollution Study (CAPS)

If you have a 5 to 11 year old child with asthma, you may be eligible to participate in an 18-week clinical trial of indoor air cleaners. The study involves a brief phone screening, sampling of your home’s indoor air, and home visits every 6 weeks to install a new air cleaner and collect information on your child’s asthma symptoms and medication use.

Compensation of $200 for full 18-week study

To learn more or to see if you are eligible, contact (203) 737-6469 or email CAPS@yale.edu. Visit our website for more information: http://medicine.yale.edu/ysph/cppee/projects/projects/caps.aspx
